Willian Lemann

Front-end Developer - ReactJS at VanHack | React Native | NextJS
Santa Catarina, Brasil

Resumo

With fluent English and a degree in Business Administration Technician, I studied 5th semesters in International Relations at Ritter dos Reis University. In 2018 I fell in love with the technological area and also seeing the demand in the job market I ended up changing the area. Today, I am graduated in Analysis and systems development at Fatec college and I discovered myself in the area of software development and over time I discovered myself in some specific technologies in this area, such as, Javascript. Today I don't see myself doing anything else and I try to develop myself every day in that area.

- Professional Interests:

- Develop my skills and knowledge in the Javascript stack and its entire environment (React.js, React Native and Node.js);
- Develop my soft skills;
- Grow professionally by increasing my professional maturity (Seniority);
- Work remotely;
- Work abroad.

- Personal Interests

- Undertake
- Create a startup and generate a good Valuation on it;
- Increase my passive income.

Experiência

VanHack

Front-end Developer - ReactJS | NextJS
março de 2021 - Present (2 anos 1 mês)
Vancouver, Colúmbia Britânica, Canadá

Working with ReactJS to build and maintain new features to the vanhack platform.

Our product is a platform to put together candidates and companies to help them get hire and be relocated or work remotely as soon as possible.

Now we are migrating from legacy Webpack React application to a new Nextjs application using all the modern features such as, SSR and ISR

Viaflow - Talentos e Tecnologia

Full Stack Developer

junho de 2019 - março de 2021 (1 ano 10 meses)

Porto Alegre e Região, Brasil
